Hey Justin, looks like you guys still haven't released. I wanted to make sure you had a handle on things and you weren't waiting on us to do anything else. Cheers,

Tom

Justin, very sorry- I went home sick and the guy I cc'd (eric strand) got left off of this email.

I saw your message on my phone and jumped on- your're reviewed and ready!

Hi Tom,

Sorry to bother you but I just wanted to double-check if there's something more we need to do on our end, as the status on paragon is still showing as "for review" with no sign of the release button as yet.

Best regards,

Justin

Great, thanks Justin! I am approving your prices and your release request. You'll be able to publish the game at-will whenever you want, just do it before end of business hours (5pm Pacific Time). Learn more about releasing your own game here (note that you'll need to be logged in to see this page from the Steamworks dev forums)

Hi Tom,

Thanks for the heads up; Paragon's price on other digital retailers has now been updated accordingly so hopefully we're ready to go!

Best regards,

Hey guys! Looks like Paragon is almost ready for release. One quick note- it looks like the game sells online for about 7 bucks already, but the price you requested on Steam is \$14. We try to offer our customers the best possible prices, so we avoid selling at a disadvantage like that. Once the price on Steam matches the price elsewhere, we'll be ready to release the game! Cheers and let me know if you have questions,
